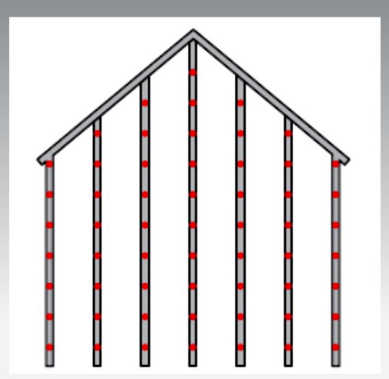
The ANCHORperfect ™ Installation System

ANCHORperfect combines precisely spaced nail slots with indicator letters designed for accurate and secure installation.

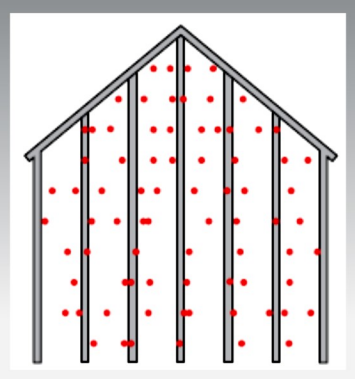
ALL RIGHTS RESERVED PATENTED ALL RIGHTS RESERVED

ANCHORperfect for Accuracy

Nail slots align with 16" on-center standards for stud spacing.
Indicator letters help: determine location of studs, ensure nails are positioned correctly and ensure the correct number of nails are used.



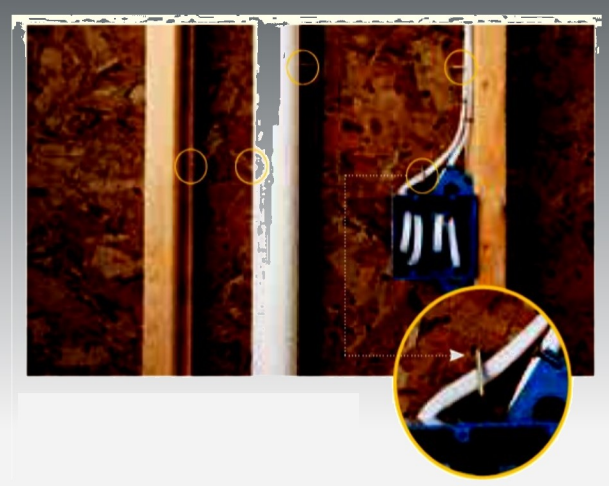
With ANCHORperfect™



Possible outcome without

ANCHORperfect™ for Security and Performance

- **Nailing to studs provides a strong and secure connection.**
- **Protects against blow offs from under nailing.**
- **Protects against buckling from over nailing.**
- **Helps avoid nailing into hazardous items between studs like plumbing or wiring.**



ANCHORperfect™ because beauty and performance start with a quality installation.

Tightform ™ Technology

Tightform (rolled over nail hem) technology stiffens siding for a straighter-on-the-wall appearance and has been tested to withstand wind load pressures up to 200 mph.

PermaLock™ - features an oversized ridged tear-drop shape which is substantially larger than many competitors locks, providing secure installation.

The angular locking leg creates a secure, snap-fit installation, allowing for necessary expansion and contraction.
