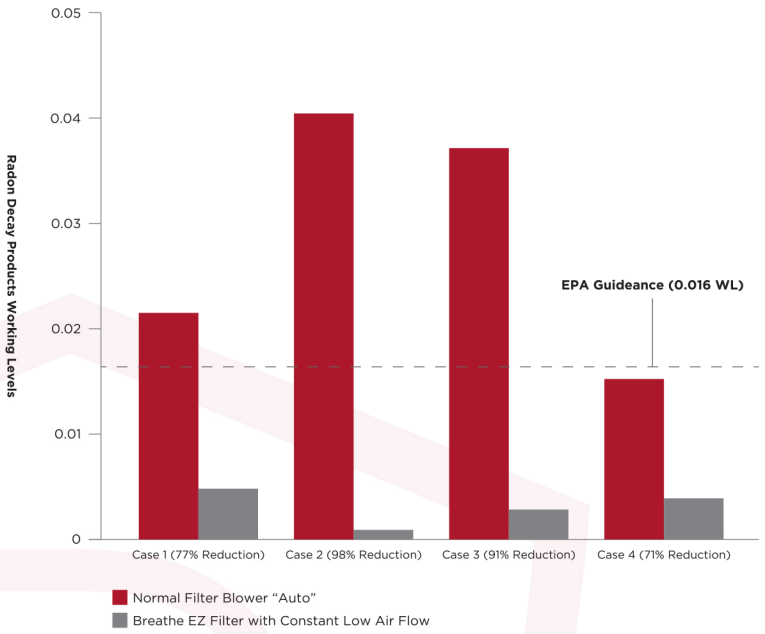
Breathe EZ is The Best Whole House Air Cleaning Technology

FILTER RADON DECAY PRODUCT:
Radon Mitigation Systems are the first step of reducing your risks of lung cancer. Breathe EZ Air Cleaner is installed as extra protection to reduce your exposure to harmful Radon Decay Product. Breathe EZ is the only air cleaner that has been proven to drastically reduce Radon Decay Product due to its unique design.

LOW RESISTANCE SAVES MONEY:
Low air resistance and low power consumption means up to 30% less energy consumed within the HVAC system compared to other filters. In a large building, the savings can be considerable.

Breathe EZ Air Cleaner:
Effectiveness on Reducing Radon Decay Products



CLEANS ALL THE AIR: The Breathe EZ is excellent at removing tobacco and cooking smoke, pet dander, and other ultra fine particles from the air. It uses attraction and agglomeration to capture tiny particles that just pass through non-electronic filters. At .007 microns the Breathe EZ is up to 45 times as effective as high end pleated filters and even exceeds HEPA filters in capturing particles this small.

LESS DUST: Breathe EZ users experience significant reduction in household dust. You can clean less!
