MATERIAL CHOICES MAKE A DIFFERENCE...

VINYL WINDOWS AND DOORS are virtually maintenance-free and offer enduring performance in all weather conditions. They are produced from polyvinyl chloride (PVC), a recyclable material that is derived from a naturally-occurring salt. Vinyl comes in several different color options, including wood-grain, and can also be painted.

Due to the affordability and performance of vinyl, this is the most popular type of <u>replacement</u> window on the market today!

ALUMINUM is an economical and low-maintenance choice for temperate climates. It conducts heat and cold, which can lead to condensation or energy loss during the winter and summer months.

composite / Fiberglass are relatively new materials in the replacement window market. These windows are generally strong, durable and low maintenance. But they may not be widely available, and can be more expensive than vinyl or aluminum.

ENERGY EFFICIENCY: THE KEY TO BUYING WINDOWS & DOORS

GLASS = ENERGY EFFICIENCY

COUNT THE PANES: A window's insulating property improves with each sealed layer of glass. Always choose a double-pane or triple-pane window over single-pane models.

CONSIDER THE COATING: Quality glass has a coating called "low-E" (low emissivity) which deflects the sun's rays and helps to maintain consistent indoor temperatures year-round.

ASK ABOUT THE U-VALUE: The U-value rating indicates how much heat flows through the window. A lower number means the window will insulate better.

KNOW YOUR CERTIFICATIONS

CHECK THE ENERGY STAR® RATING: Products that carry an ENERGY STAR label are certified by the US Environmental Protection Agency to improve efficiency and lower your energy bills.

LOOK FOR THE NFRC LABEL:

NFRC stands for the National Fenestration
Rating Council, a nonprofit organization that
independently certifies the energy performance of
manufacturers' window products. This certification
rates the window's ability to withstand extreme
temperatures and high wind speeds.

ASK WHAT THE WARRANTY INCLUDES: $\ensuremath{\mathsf{A}}$

warranty should always be provided in writing. The terms of coverage should be understandable and state who is responsible in the event of a problem.

CVP Windows & Doors feature the industry's leading Low-E, Argon-insulated glass units. Designed to reflect radiant heat and block UV rays, our double- and triple-pane window systems keep your home cooler in summer and warmer in winter. They also help reduce environmental noise.

DEMAND VALUE & PERFORMANCE

While price is an important consideration, look deeper to make sure you're getting the best overall value. Better-insulated windows can be more expensive, but they also increase energy efficiency. Buying quality will put money back in your pocket as you save on heating and cooling costs.

BUILT TO A HIGHER STANDARD

Our maintenance-free vinyl windows are custom built using advanced technology and high-performance materials for strength, durability, and energy-efficiency. They are industry-leading in thermal performance. All products meet or exceed EnergyStar® standards and are certified by the American Architectural Manufacturers Association (AAMA), and the National Fenestration Ratings Council (NFRC).

THE REPORT OF THE PARTY OF THE

Technical specifications are available on our website: **customvinyl.net**.

Optional nail fin

Multi-cavity fusion welded frame

Lower tilting sash

Interlock at check rail

Steel reinforcements

Dual seal weatherstripping reduces air infiltration

Up to 1 1/4" glass

Sloped sill

For over 15 years, Custom Vinyl Products, LLC has provided building professionals and homeowners with quality-built, maintenance-free vinyl windows and sliding glass doors. Our products are featured in residential and commercial buildings throughout the mid-Atlantic. Our position in the market offers an advantage over other window companies and national brands.

QUALITY: Custom-built, maintenance-free windows and doors to last a lifetime

VALUE: Competitive pricing on American-made windows and doors. No high-pressure sales tactics

SERVICE: Professional installation and rapid warranty support from a local manufacturing facility

Count on us to consistently deliver a high-quality product, at a fair price, installed with integrity and professionalism. We are here to serve you, and our reputation depends on your satisfaction.

OUR PROCESS & PRICING

Some companies advertise an inexpensive window to get you in the door, then increase the price with add-on options. We do things differently. Our sales team will give you a fair and comprehensive estimate based on the needs of your home.

FREE IN-HOME CONSULTATION

Your time is valuable, and we work around your schedule. In 15 - 30 minutes, we can present a product overview and assess your existing windows. You'll receive our no-obligation estimate by email. Our approach is to share information, not linger in your home and wear you down with high-pressure sales tactics.

FINANCING AVAILABLE

We understand that replacement windows and doors can be a significant investment. That's why we're pleased to offer financing through a partnership with Medallion Bank.

CUSTOMER REVIEWS

"The CVP team is excellent. They have been precise with measurements, clean and neat and very respectful. The product they are providing is fantastic. I researched and looked at a lot of windows for my house, starting with the major brands. No one came close to the attention to detail in product and customer service as CVP! Why did I wait so long? I love the windows!"

Thomas R. Williamsburg, VA

"Thank you so much! We could not have asked for more from a window company; my husband and I are very happy with the product and the installation team. We ordered twenty custom windows because we wanted the best energy efficiency windows on the market and for them to fit correctly. Everything went flawlessly."

Jim and Janelle W. Newport News, VA

"Thank you so much for the beautiful windows and the awesome service provided by CVP. We are so happy with the windows. I have already shared pictures and info with a coworker who is contemplating new windows... Again, thank you!"

Debra Lynn M. Isle of Wight, VA

"I had a vision in mind, and wanted to weigh all my options. CVP delivered with hands-on service and expertise. This is my dream home and I'm so happy to have windows custom-made to my specifications."

Jen D. Hampton, VA

Home featured in Season 3 of HGTV's Beachfront Bargain Hunt: Renovation

From our headquarters in Newport News, Virginia, we serve Hampton Roads, the Richmond Metro area, and North Carolina. Our products can be shipped nationwide.
