

EVOLVE SERIES® TWIN TANK SYSTEMS

Evolve®

BETTER SCIENCE. BRILLIANT WATER.®

BRILLIANT WATER FOR YOUR HOME.

Quality water is important to you and your family. Ensuring your household enjoys the cleanest, freshest and most efficient water is simple.

Evolve Series® twin tank water treatment systems use advanced science to offer clean water 24 hours a day, seven days a week. Designed to meet today's high-capacity demands for the best possible water, smart high-tech electronics simplify a complex process, whether you're a city water customer or a well owner. Save money with reduced salt and water consumption, and feel good knowing your Evolve system is made in the U.S.A.

EVOLVE SERIES CONDITIONERS. ONE UNIT. ONE SOLUTION.

Your home deserves the world's most cutting-edge water treatment. Exclusive Crystal-Right™ media solves hard water challenges, reduces elevated levels of iron and manganese, and corrects mildly acidic water conditions, helping preserve your home's plumbing and fixtures. Patented electronic IQ² controller valves regenerate only when needed, efficiently cleaning the system and saving salt and money. What you experience is a single, reliable, self-monitoring system that conditions water, removes minerals, eliminates odors, and provides great taste.

EVR ADVANCED, HIGH-PERFORMANCE TREATMENT.

Go beyond water softening. With EVR, you'll enjoy self-chlorinating that delivers and maintains an impeccable water quality level. High-performance resin media removes unwanted tastes and odors, and patented IQ² cleaning/monitoring technology controls your EVR system, fine-tuning it to your specific water treatment needs. Evolve softeners are designed to be flexible, using the most advanced, eco-friendly features to save you water and, most importantly, money.

Also available as an RC resin/carbon unit.

EVRS ECO-FRIENDLY, LESS IS MORE DESIGN.

Welcome to the newest in green water softening technology. The EVRS applies patented IQ² technology* to use less water and salt, while automatically maintaining peak performance 24 hours a day, 7 days a week. Forget about unwanted minerals and hardness, and simply appreciate cleaner water delivered at the highest level of innovation. Plus, enjoy the peace of mind of highly efficient plumbing and water-using appliances throughout your household.

Also available as an RC resin/carbon unit.

*Excluding the chlorine generator with salt alarm and its other features.

EVOLVE SERIES® TWIN TANK SYSTEMS: THE SMART DESIGN FOR QUALITY WATER 24/7.

Every component, every feature, every innovation of the Evolve Series twin tank systems has been designed to bring the highest quality, most efficient water to you and your family.

Patented chlorine generator (only available on EV1, EV2, EVR and EVRC).

- Self-sanitizes
- Low/No Salt alerts
- Monitors every cleaning

Full array of systems with highly effective treatment media.

- Evolve conditioners feature exclusive Crystal-Right™ media, effective at eliminating hardness, iron and manganese while also correcting mildly acidic water conditions
- Evolve softeners boast a powerful and durable resin media that eliminates hardness from municipal or well water
- Evolve RC systems utilize high-performance media with activated carbon, ideal for reducing both hardness and chlorine from city water
- Powerful enough to deliver the cleanest water
- Rigorous quality control process for testing the media

Quartz underbedding.

- Delivers high and consistent flow rates
- Provides accurate and efficient cleaning process

The electronic advantage.

Patented IQ² technology for better water.

- Deep cleaning regeneration only when necessary
- Exclusive features save salt and water
- Battery back-up ensures programming is never lost due to a power failure
- Water use is monitored and recorded
- Adjustable programming for optimal performance
- Vacation Mode - convenient, money-saving
- System notifications
- Only one moving part for easy maintenance
- Soft water refill feature keeps system cleaner and reduces susceptibility for service
- Optional counter current regeneration
- Low power consumption amounts to only pennies per year!

Low-maintenance brine tank.

- Built-in safety float
- Heavyweight, corrosion-free material
- Dry salt storage
- Less cleaning

ENSURING THE BETTER WATER THAT YOUR HOUSEHOLD DESERVES.

Evolve Series® twin tank systems are part of the Evolve water treatment product line, and are built in the USA. Evolve is a trusted name in the water treatment industry and is dedicated to advancing the science and art of innovative water treatment solutions that help create brilliant water for your home.

As an Evolve dealer, we are part of a select group of certified dealers who exclusively sell and service Evolve Series systems. You can rest assured that we will deliver the highest quality water for your family, along with extraordinary customer service.

We have proven water treatment industry expertise and received extensive product and service training specific to Evolve Series systems. Evolve systems fulfill your family's water treatment needs with the highest level of innovation, efficiency and versatility. After all, better science makes brilliant water.
