

Dear Melanie and John Chaney,

Thank you for buying my second place class 2 lightweight market AOB steer at the 2014 San Antonio stock show and rodeo. It had always been a goal of mine to place at a major with a steer, and this year it came true. I would not only like to thank you for purchasing my steer, and supporting my project, but for all of the other projects and youth that you supported this year as well. As it is my senior year I will be using the money you purchased my steer with to attend Angelo State University, where I plan to major in Petroleum Engineering. I'm fortunate enough to say that with the help of you and the other buyers throughout my showing career that I am able to pay for my first year of college strictly of f of money that I made showing livestock. Showing livestock for me was more than just a hobby, it was my life. I spent more afternoons in my steer barn that I did in my actual house. Some people may think that it is a pointless activity, and that nobody has enough time for it, but when you love showing as much as I do, you learn to find time for it. I may no longer be able to show, but my heart will forever be in the stock show world.

Thanks again,

Scott
