

TERMITE & PEST SERVICES

HEAT TREATMENT PREPARATION REQUIREMENTS

Completed

- 1. Shut down sprinkler system, cap sprinklers or set system to activate at 200F or above.
2. Deactivate or remove smoke/heat/fire detectors and alarms in service areas.
3. Provide access to unit and all interior areas of unit. Unlock storage chests and cabinets in area.
4. Unplug all electronic devices and appliances including, but not limited to, computers, clocks, televisions, microwave ovens, electric stoves, refrigerators, freezers, washing machines, dryers, etc.
5. Open luggage and dresser drawers. If drawers are packed, remove some clothing and hang.
6. Remove all pets and plants (including fish).
7. Remove all receptacle and switch plate covers from walls.
8. DO NOT remove sheets, linens, covers or encasements from bed and mattress.
9. Remove all medications and vitamins from premises or place in refrigerator.
10. Remove all firearms and ammunition.
11. Turn heat on maximum at least 30 minutes before scheduled treatment.
12. Move furniture 6" away from wall.
13. Do not pile or bag clothing, furniture and personal belongings.
14. Space clothing in closet. If closet is packed tightly, remove some clothing and hang elsewhere.
15. Leave at least a 3' x 3' area in each room for the equipment.
16. Waterbeds must be drained of all water.
17. Air mattresses should be deflated by approximately 5%.
18. Secure loose papers, photographs and other items that could be damaged by high wind.

The following temperature-sensitive articles must be inspected for insects and protected from the heat treatment. Items may be stored in the refrigerator (if not unplugged), inside a chilled cooler or removed from the premises for the duration of the treatment. Any item that is not going to be exposed to the heat treatment should be wiped with a clean rag before storing or removing it from the premises. If any item is found to be infested with insects, it must be brought up to your technician's attention before the treatment begins.

- Chocolate, candy and other melting food items.
• Carbonated beverages, alcoholic or otherwise, in cans and bottles.
• Medical equipment
• Aerosol or pressurized cans of any kind (deodorant, hairspray, spray paint, etc.)
• Candles, deodorant, lip balm, make-up and other items prone to melting.
• Musical instruments & vinyl records
• Wine and other items that could spoil from exposure to heat.

As a rule of thumb, any item that would be damaged or melt if left on the dashboard of a closed car in the summer should be removed from the premises or protected from this treatment. Fuel, paint thinners, turpentine and all other combustible products.

WE WILL NOT BE LIABLE FOR ANY DAMAGE TO PERSONS, THE PREMISES OR PERSONAL PROPERTY AS A RESULT OF FAILING TO PREPARE THE PREMISES IN ACCORDANCE WITH THESE REQUIREMENTS.
